

St. Mary's ISC **Everything** **You Need**

A school designed for achievers of NEET, JEE, and life.

St. Mary's ISC
Grade 11 & 12 Science

Science of Cracking NEET

He Didn't Chase NEET. He Mastered It.

"I liked how normal everything felt — even the difficult parts. Our NEET prep was just a natural part of the day. After evening tests, we'd walk back with snacks and talk through what went wrong, and somehow, it stuck better."

Guruprasad Naik

AIR 74 CR

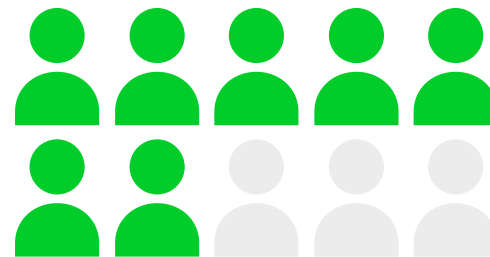

7 Times Better Than the National Average

Not every student becomes a doctor. But here, **7 in every 10** did.

Because the plan isn't built around pressure, it's built around progress.

Quiet. Consistent. Daily.

NEET Built Into the Day

- Core concepts are taught when the mind is fresh.
- Boards are prepared alongside NEET.
- Evenings are for doubt-clearing, not cramming.

There's no confusion about what to do next.

The Plan That Stays the Course

Next 2 years, students know exactly what to do.

No last-minute pressure. Just **consistent, focused steps**.

She Didn't Wait for a Wake-Up Call.

She Trusted the Process — and It Paid Off. **In 2025, Deekshitha scored 618 in NEET** — no drama, just quiet discipline from day one.

While others searched for answers, she had the map, the rhythm, the team, the system.

No sprints. No stumbles. Just staying the course — and arriving where most dream to be.

Deekshitha
618 Marks

Getting It Right Matters More.

NEET success doesn't begin in April.

It begins with **structure, on Day 1**.

Every concept, every doubt session, every test — is part of a system built to move students forward, whether they're starting strong or starting over.

It's not just about one topper. **It's about how far the entire class rises — together.**

We've seen our NEET students perform up to

**148%
Better**

when the plan is right.

Architecture of Cracking JEE

Learning with Joy. Consistency in Effort.

- Our students solve for the joy of understanding, not just marks.
- Learning is kept active and engaging.
- Focus stays high because interest stays alive.

Our students enjoy the challenge.

From St. Mary's ISC to India's Best IIT

"At first, I wasn't sure if ISC could get me into IIT. But once I started at St. Mary's, I saw how well it aligned with JEE."

With the right guidance and the ISC system, I made it to IIT Madras."

Tharun S Murthy
IIT Madras

ART OF PROBLEM SOLVING

It starts small.
One idea. One question.

Mistakes aren't wrong,
they're how you begin to understand.

**Each Step Builds the
Habit of Solving**

Our Students Miss Learning at St. Mary's More Than at IIT.

*"I enjoyed learning at St. Mary's more than at IIT. It **felt like home**, not just a classroom. Even now, I **stay connected through the alumni network** – **guiding juniors** and sharing what I've learned, because I believe real learning doesn't stop after graduation."*

Deshika P
IIT Bhubaneswar

Being a Marian means, You Earned It.

Seats here are limited, because what follows is worth it. You learn with

- focused peers
- guided by mentors
- supported by a strong alumni network.

100% scholarships aren't luck.
They're the result of your effort.

The St. Mary's Tradition

*"Those 5pm to 8pm **doubt-clearing hours** changed everything for me. Teachers sat with us **one-on-one**, not judging – just helping. That kind of **support made learning smoother, faster, and more personal.**"*

Likith P Gujar
NITK, Suratkal

One Curriculum That

Covers Every Dream

ISC allows our students to choose 3 core subjects, English, and one light optional — so they **don't waste energy on what doesn't matter**. With more time for NEET, JEE and other entrance exams, they can **focus on what really shapes their future**.

Study Smart
and Focus on
What Matters

Only Strategists Choose ISC

While many prepare for just one path, ISC students are naturally equipped to explore many—and choose the one that best aligns with their ambition. Because **the Smartest Strategy is having Options**.

The ISC curriculum is designed to align seamlessly with national entrance exams like NEET, JEE, CUET, and international pathways such as SAT (Scholastic Aptitude Test) and AP (Advanced Placement) —without the need for extra coaching or parallel tracks.

7th All India Rank | 98.25%
₹ 2.22 Cr Scholarship to Toronto

"When I began Grade 11, I wasn't sure if I'd pursue medicine in India or research abroad. But the ISC curriculum allowed me to prepare for both—without extra coaching or added pressure. I **qualified JEE, with 96.26th Percentile**, and eventually received a fully funded offer to study neuroscience **at the University of Toronto, worth ₹ 2.22 crores**. My education, living, everything is covered. More than marks, **ISC gave me the clarity and confidence** to choose the future I truly wanted."

Pushkarini
University of Toronto

ISC Builds Confidence

ISC Aligned for Medicine in India

With NCERT, based Biology, Physics, and Chemistry, ISC ensures **students are learning exactly what NEET demands.**

Foundation

ISC gives students the foundation they **need to succeed**

Excellent for students aiming for **AIIMS, KMC, BMC, MMC** and other top state colleges

Clarity

NEET tests how well you understand, not just remember. **ISC builds that clarity** from the start.

Time management is built into the curriculum to reduce stress & burnout

No extra subjects. ISC simplifies the board experience, allowing students to focus fully on NEET.

ISC Foundation for Engineering

ISC strengthens core JEE skills like analytical thinking, multi-step problem-solving, and application-based learning.

ISC's core topics, chapter sequencing, and problem types match JEE patterns

ISC students are trained to **think, solve, and explain**, not just memorize

Math depth + Physics fundamentals are directly mapped to JEE weightage

ISC is the Key to IITs, AIIMS, and Ivy Leagues

Indian Curriculum

ISC stands for **Indian School Certificate**, not "international"

National Recognition

Recognized by all Indian universities and top competitive exams like:

- JEE Main & Advanced
- NEET UG
- CUET
- BITSAT
- IAT (IISER)
- Other National Competitive exams

Dual advantage

ISC prepares you for **IITs, AIIMS, NITs, IISc, and India's top medical and research institutes** — while also opening doors to **Ivy League universities, global scholarships**, and future-ready degrees across the world.

ISC Subject Choice

COMPULSORY SUBJECTS

1. English Literature
2. English Language
3. Physics
4. Chemistry

Optional Subject to Choose

OPTION 1

Math

OPTION 2

Biology or Computer Science

OPTION 3

Physical Education or Art

Moments That Reset the Mind

Recharging is Part of the Academic Routine

SPORTS

A quick game of football or basketball. Just enough to sweat, smile, and switch gears.

Physical play refreshes the mind — without derailing academic focus.

Some head to the music room, strumming guitars or singing in small circles. No formal coaching — just creative release.

It's where they express, unwind, and return with sharper clarity.

MUSIC

Why It Matters

Whether it's a walk with friends, a quiet moment, or a burst of movement —

We believe recovery builds momentum.

That's why every student's schedule has time to pause and refocus.

Music Without Expectations

Music rooms are open for exploration — not performance.

From keyboard to guitar, students take time to reset, express, and enjoy.

No exams. No events. Just joyful breaks between intense study sessions.

Play, Not Pressure

Sports at St. Mary's ISC Science is for relaxation — not competition.

Students enjoy football, volleyball, basketball, and more in the evenings.

We don't coach for tournaments or school teams — because our science students focus where it matters most.
